

TP HINGES

- ☐ **Continuous Partition Hinges are Durable** - Add years of maintenance-free operation to any partition system.
- ☐ **Support Partition Doors Along Their Entire Length** - Marker TP Hinges run the complete length of the door to distribute weight evenly.
- ☐ **Add Rigidity to Ceiling Hung Partitions** - Projects that require this type of mounting procedure need the added support given by the TP Hinge.
- ☐ **Eliminate Open "Sight-Lines"** - Continuous hinge surfaces maximize privacy by eliminating visual intrusion. There are no openings along the hinge.
- ☐ **Ideal for Damp or Corrosive Environments** - Fabricated from heavy-duty 14 gauge 304 stainless steel or 6463-T5 anodized aluminum.
- ☐ **Adjustable Spring-Loaded Hinges** - Torx Tip Cap adjusts the internal mechanism to close the partition door tightly, or to keep the door open to show vacancy.
- ☐ **Left or Right-Handed** - All partition hinges can be used on either side of the door.

TP Continuous Pin and Barrel type hinges have been engineered to withstand the extraordinary abuse and heavy traffic associated with toilet partition doors. Various models, designed to be function-specific, are constructed from heavy gauge stainless steel or aluminum. Marker Continuous Hinges distribute door weight and stress along the entire length of the door, so partition doors operate dependably year after year. Maintenance expense is dramatically reduced.

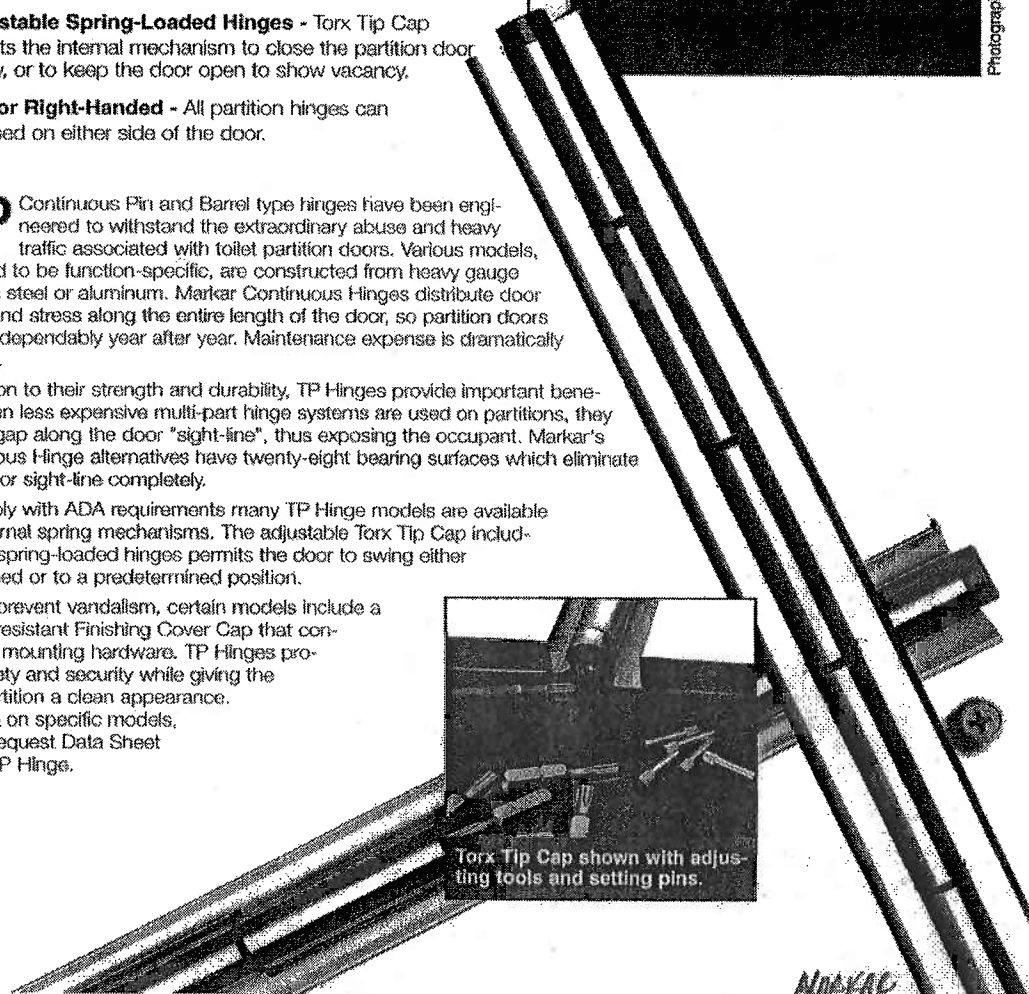

In addition to their strength and durability, TP Hinges provide important benefits. When less expensive multi-part hinge systems are used on partitions, they leave a gap along the door "sight-line", thus exposing the occupant. Marker's Continuous Hinge alternatives have twenty-eight bearing surfaces which eliminate the gap or sight-line completely.

To comply with ADA requirements many TP Hinge models are available with internal spring mechanisms. The adjustable Torx Tip Cap included with spring-loaded hinges permits the door to swing either fully closed or to a predetermined position.

To help prevent vandalism, certain models include a tamper-resistant Finishing Cover Cap that conceals all mounting hardware. TP Hinges provide safety and security while giving the toilet partition a clean appearance. For data on specific models, please request Data Sheet Series TP Hinge.
